

## Appendix 1 Healthcare Science Divisions and Specialties

| <b>Division</b>                                 | <b>Specialty</b>                      |
|---|---------------------------------------|
| PHYSICAL SCIENCES AND<br>BIOMEDICAL ENGINEERING | Clinical Measurement and Development  |
|   | Device Risk Management and Governance |
|   | Rehabilitation Engineering            |
|   | Clinical Pharmaceutical Sciences      |
|   | Imaging with Ionising Radiation       |
|   | Imaging with Non-Ionising Radiation   |
|   | Radiation Safety Physics              |
|   | Radiotherapy Physics                  |
|   | Reconstructive Science                |
| PHYSIOLOGICAL SCIENCES                          | Cardiac Science                       |
|   | Critical Care Science                 |
|   | Respiratory and Sleep Science         |
|   | Vascular Science                      |
|   | Gastrointestinal Physiology           |
|   | Urodynamic Science                    |
|   | Audiology                             |
|   | Neurophysiology                       |
|   | Ophthalmic and Vision Science         |
| INFORMATICS                                     | Applied Epidemiology                  |
|   | Genomics                              |
|   | Health Informatics                    |
|   | Physical Sciences                     |
| LIFE SCIENCES                                   | Clinical Biochemistry                 |
|   | Clinical Immunology                   |
|   | Haematology and Transfusion Science   |
|   | Histocompatibility and Immunogenetics |
|   | Cytopathology                         |
|   | Histopathology                        |
|   | Reproductive Science (Andrology)      |
|   | Reproductive Science (Embryology)     |
|   | Cancer Genomics                       |
|   | Genomics                              |
|   | Genomics Counselling                  |
|   | Clinical Microbiology                 |
|   | Decontamination Science               |
